

The 63rd Congress of the European Organisation for Caries Research

Hatakeyama R, Naka S, Nomura R, Nakano K.

Contribution of Cnm and PA of *Streptococcus mutans* to aggravation of non-alcoholic steatohepatitis in mice.

Ogaya Y, Nomura R, Nakano K.

Collagen-binding protein of *Streptococcus mutans* promotes proliferation of pulp fibroblast cells.

Otsugu M, Nomura R, Nakano K.

Serum component promotes *Streptococcus mutans* agglutination associated with pathogenesis of infective endocarditis.

Naka S, Misaki T, Takashima Y, Hatakeyama R, Nomura R, Matumoto-Nakano M, Nakano K.

Contribution of Cnm-positive *Streptococcus mutans* strains to IgA nephropathy.

Nomura R, Otsugu M, Nakano K.

Type IV collagen promotes internalization of *Streptococcus mutans* in vein endothelial cells.
